New summary as follows: This bill requires that any school district providing transportation for its students to provide transportation for all elementary and secondary level students living and attending a school within the district, regardless of whether the student attends a public school. The district may charge a fee for transporting students who attend nonpublic schools. Parents who provide transportation for students attending school in another district may, beginning with the 2002 tax year, apply for a tax credit to reimburse those costs when no public or contracted transportation exists.
